One Million Ways Attackers Breach Office 365 Email

CASE STUDY

MSSP Legato Security Strengthens its Protection Against Email Cyberthreats

CUSTOMER PROFILE

- Managed security services company providing SOC-as-a-Service
- Based in Salt Lake City, Utah
- Privately held

CHALLENGES

- Threats slipping pass Office 365 and existing security infrastructure
- Closing cloud email security gaps that raise the risk of Business Email Compromise, ransomware and other threats

> "Since working with Area 1, Legato has seen a significant drop in phishing email incidents, with little to no impact on email productivity.
>
> This service is just extremely effective at stopping phishing."

OUTCOMES DELIVERED

APPROACH

Area 1 Horizon™ deployed with Office 365

OUTCOMES

2,000 malicious emails prevented from reaching end users' inboxes within a 12-month period

Significant reduction in phishing incidents, increasing employee productivity

Organization confident its customers are protected from phishing attacks
